

Hospitality

Holiday Inn - Cleveland Clinic

Hotel

Cleveland, OH | \$32,700,000 | 165,370 SF

Nine-story, 276-room hotel with indoor pool, full service kitchen, dining, meeting room, fitness and laundry. The design team worked closely with the Cleveland Clinic to incorporate the architectural aesthetic of the main campus in the design of the hotel. Features included a cantilevered port cochère and a glazed feature stair tower.

Structural Systems:

Cast-in-place post-tensioned flat plate supported on conventional spread footings incorporating mini mat footings in high load areas.

Mechanical Systems:

Water source heat pump with cooling tower and boiler plant. Systems also include emergency generator, stairwell pressurization, and a post fire purge system designed in accordance with high rise building requirements.
